About Ascensia International School

Centrally located in the heart of Singapore, Ascensia International School (AAIS) caters to families from many different nationalities. AAIS offers a comprehensive through-train programme from Primary to High School with smooth progression from the International Baccalaureate (IB) Primary Years Programme (PYP), to the Cambridge International General Certificate of Secondary Education (IGCSE) and finally the Cambridge International AS & A Level or the International Baccalaureate Diploma Programme (IBDP). Since 1992, parents have valued the school's dedication to its mission of quality education and development of the child as a whole.

AAIS is an IB World School authorised to offer primary students an inspired inquiry-led learning experience. The students' journey at AAIS is full of explorations to the world. In return, they grow to become passionate and responsible individuals seeking to move forward with a positive attitude.

Our students progress with the guidance and care by our committed teachers during the Secondary Years. AAIS aims to equip our students with both the academic knowledge and 21st Century skillset through the IGCSE programme and further strengthen them through the Cambridge International AS & A Level or the International Baccalaureate Diploma Programme.

AAIS has attained the authorisation of the International Baccalaureate Diploma Programme aiming to provide students with quality education at pre-university and High School level. The programme focuses on skills in research, communication and presentation, which will enhance our students' minds and hearts for their future endeavours in the Higher Education level.

At AAIS, the student-centred pedagogy, incorporating rigorous focus on academic and holistic development, creates a transformational whole new educational experience, empowering students to develop and gain admission into prestigious colleges and universities. Also, an inquiry-based pedagogy ensures that high quality teaching and learning meets the needs of all its students. To complement the high degree of academic rigour, the students celebrate diversity and undertake social responsibility inside and outside of the classroom. They are honed to a high level of

awareness, demonstrating aptitude in global citizenship and intercultural environments as agents and leaders who are principled and responsible.

**AAIS is an IB World School authorised by the International Baccalaureate (IB) to offer the Primary Years Programme (PYP), and the Diploma Programme (DP). Co-Curricular Activity (CCA)

Beginning on year 2021, the students will be attending Co-Curricular Activities, a well-deliberated and planned series of exciting, immersive and experiential learning activities, including board games, coding and Art and Craft, to enrich their minds, enhance their learning and equip them with skills, knowledge and competencies. The activities will be conducted in a rotational manner.

Through board games, in particular, Chinese Chess, or commonly known as Xiang Qi, the students will embark on a life-long journey of self-discovery and self-improvement. By learning visualization, they anticipate the outcomes of each step they take. They learn how to take into consideration the potential of each placement and the threats that are present and/or will develop. They will be trained to take into account what might possibly happen in the next 4 moves. They are challenged to think ahead and envision how their opponent might respond to their moves. They develop logical thinking skills by evaluating the value of each piece they have and how their moves can cause changes that might benefit or threaten them. By learning the skills, taking up challenges and learning from their own mistakes, they will hone and improve themselves in visualization, focus, logical thinking skills and even character development.

Through coding, the students will pick up skills that will enable them to stay ahead in the rapidly advancing and changing technological landscape. They will learn the skills and knowledge needed to write codes and programmes. They will experience formulating questions and plan how to utilise technology. The hands-on activities using high-tech equipment would enable them to pick up the skills needed to design software, applications and web pages. They will learn how to direct an object's movements, make sounds, change its appearance or execute series of complicated manoeuvres/sequences. They will learn how to design presentations, games and interactive applications to demonstrate their creativity or help people get organized and manage better.

In the Art and Craft sessions, the students will experience creating art in a fully-furnished and well-equipped Art Studio. They will explore a range of art topics, from drawing, painting to lettering and fine art. They will learn how to create artwork using a variety of media, including pencils, inks, water colours, acrylic paints, clay and many more. Through the sessions taught by trained and talented art teachers, they will be able to take their skill to the

next level whether it is sketching, sculpting, doodling, designing, or making collages.

USEFUL INFORMATION

Secrets of Academic Success

A. DEVELOP GOOD STUDY HABITS

- Daily Revision:
Look through what was taught in class and do assigned homework daily.
- Be your own teacher:
Teach yourself. Don't rely too much on your teacher to spoon feed you every time. Get excited about learning. Learn to love your subjects.
- Develop a super-power memory - one that will astonish your friends and amaze your teacher:
Remember that there is no such thing as a poor memory – only an untrained one. Your memory is like a muscle; exercise it and it will become stronger.
- Make full use of classroom instruction:
Be prepared for your lessons; come with the appropriate books and equipment you need. Listen and concentrate in class.
- Develop a routine:
Organise your room, so that you know exactly where your books, files, writing materials, clothes, uniforms etc. are at all times. Make sure you have a table or at least a desk to sit at and write on. Do your homework straightaway; especially on Fridays when you have the whole weekend to do it.
- Work co-operatively with your friends
Form study groups of four to five persons. These groups will enable you to develop / clarify your ideas, improve your understanding of the topic under discussion and feel less anxious about your work.

B. STUDY SKILLS

- Understand what you have learnt for the day:
Read and skim through textbooks or notes for keywords, main ideas and important examples.
- Organise the information:
Using mind-mapping or note-taking, organise the topic you have just studied.

- Recall:
Write down brief points. Check with your notes to find out which are the points you have missed out.
- Mastering the information:
For subjects requiring the application of knowledge, like Mathematics, practice many problems to master the skills.

C. KEEPING A HEALTHY LIFESTYLE

- Ensure at least 7 to 8 hours of sleep every day.
- Keep a balanced diet:
Eat more vegetables and fruits and avoid oily/fried food. Take vitamins if necessary.

Cost of Living

The standard of living in Singapore is amongst the highest in Asia. Compared to countries in western continents, the cost of living here is relatively low, and basic items like food and clothing are very reasonably priced.

An international student in Singapore spends on average about S\$750 to S\$2,000 a month on living expenses. This amount, of course, varies depending on your individual lifestyle and course of study.

These estimated cost ranges in the Table below gives a rough guide of the basic expenditure an international student may incur per month. When planning your budget, you will need to cater for these items:

Item	Cost per Month
Accommodation	\$800 - \$1,500 (rental varies with geographical area, type of accommodation, demand, facilities provided and the number of people sharing)
Utilities	\$50 - \$80 (not applicable for boarding schools)
Food	\$450 - \$600 (Based on \$15-\$20 a day for 3 meals) Note: Included in boarding fees, Boarding Schools usually provide two meals a day. Not included in room rates, Halls of Residence normally offer meals at extra charge.
Public Transport	\$50 - \$100 (varies with types of student concession pass)
Telecommunications	From \$30 (varies with usage and promotional packages subscribed)
Books & Stationery	\$30 - \$100 (varies with course)
Medical Hospitalisation Insurance	\$30 - \$50

Health

If You Need Medical Attention, there are four modes to seek help.

- Visit a polyclinic
- Visit a private clinic near where you stay
- Admit to the Accident and Emergency Section (A&E) of any hospital if you have an emergency
- Dial **995** if you need an ambulance urgently, otherwise dial **1777**

Average Costs of Outpatient Consultation

In general, the consultation fee at a polyclinic is \$53.50 for non-Singaporeans. There are separate

charges for screenings, medical examinations and other services.

Consultation fees for private clinics vary and a minimum of \$18 is commonly charged. Dental charges at polyclinic range from \$37.40 - \$111.80.

Personal and Medical Insurance

Although occasional visits to polyclinics and private clinics are affordable to most people, hospitalisation and surgeries can turn out to be extremely costly in Singapore.

International students are therefore advised to purchase a medical insurance during their studies. Hospital and medical insurance can be purchased at insurance companies in Singapore.
